

Prof. Gilles-Eric SERALINI - 2025 CV

Professor Gilles-Eric Seralini is an international researcher working on the effects of pollutants on health, especially *GMOs* and pesticides, as well as the mechanisms of detoxification. He has discovered major hidden toxicities for these products. One of the most cited in the world on this topic.

Lobbies have defamed him several times, he won seven times in Court when he attacked them from 2011 to 2017. Still, they are modifying his public profile as much as they can and coordinate several dishonest pressures. He is cited around 57,000 times in the Monsanto Papers.

He has an official site: www.seralini.fr

- Born in 1960, french.
- From 1991, full professor (now exceptional class) of molecular biology and toxicology at the University of Caen Normandy (chair).
In this University, co-president of the multidisciplinary Network on Risks, Quality and Sustainable Environment, MRSH.
World expert for *GMOs* and pesticides risks on health and possible detoxication, consulted by more than 20 countries.
- Researcher and teacher, team leader and writer (10 books and more than 150 scientific papers or publications in international meetings).
- He founded and directed the scientific group that has published the most on the effects of pesticides and *GMOs* on human health.

-
- Area of research: effects of environment and food on health, toxicity of *GMOs* and pesticides, sexual steroids, reproduction and cancer, xenobiotics, gene expression, detoxification.
 - One of the first scientists asking for a European moratorium; and waiting for more research before *GMO* commercial release (1996-1997)
 - Member of two governmental commissions in France on *GMO* evaluation (CGB and Comité de Biovigilance, 1998-2007).
 - Expert for the European Union on environment ethics, chemical and biotechnological risks and for the conflict on *GMO* moratorium between United States and EU at the WTO level, and then for numerous countries.

- Advised the lawyers in the States who won for patients against Monsanto-Bayer (2016-2022)
- Past-president of CRIIGEN scientific council, and co-founder (1998-2016)
- Whistleblower Award 2015 (Federation of German Scientists, Germany) for his work
- Theo Colborn Award 2016 (USA) for his research on health and environment,
- "Healthy Community Hero Award" 2018 in California (Moms Across America).
- Co-founded ENSSER (www.ensser.org); socially and environmentally responsible scientists
- Co-founded Secrets Toxiques (www.secretstoxiques.fr), a coalition of 80 NGOs for a better assessment of pesticides
- Writer of numerous books. Translated in English, Spanish, German, Italian, Japanese, Estonian... In English: "The Great Health Scam" with Jérôme Douzelet (Natraj Ed.), "The Monsanto Papers" (Skyhorse Ed., Children's Health Defense).
